

Purchase technician

DESCRIPTION

DAS PHOTONICS is an upcoming and pioneering Spanish High-Tech enterprise whose mission is to develop innovative solutions, based on proprietary, high-performance photonic technology for the defense and space sectors. In recent few years, quantum systems and communications have rapidly stormed into these fields with an exponential growth, providing both novel and unprecedented applications. Being aware of this, **DAS PHOTONICS is seeking strong candidates with a solid background in the field of purchase, whose main objective will be to set up a new research line within the company based on a permanent position.**

➤ MAIN RESPONSIBILITIES

- Negotiation of prices, conditions and contracts.
- Follow-up of the execution of agreements, offers and contracts.
- Preparation and issuance of requests or bidding contests in collaboration with the rest of the operational departments.
- Optimization of the purchasing budget with an analysis of the evolution of the costs of raw materials and competition between suppliers.
- Establish a panel of suppliers, which are selected based on criteria of costs, quality and deadlines.
- Search for new suppliers and/or products, as well as the expansion of their portfolio.
- Supervision of the maintenance of the quality of the products and services purchased or contracted, respecting the costs and agreed deadlines.
- Supervision and resolution of incidents of supply, billing, reception, quality, ...
- Monitoring of new projects to anticipate the launch of new products, validation of new suppliers, as well as the negotiation of project purchase costs, conditions and deadlines.
- Coordination and monitoring of purchases and their orders. Control of the supply cycle.
- Stock control and analysis.

QUALIFICATION REQUIREMENTS

- ✓ Degree in Electronic engineering, Telecommunications, or industrial.
- ✓ 2 years of experience in a similar position in an industrial environment.
- ✓ Knowledge of business central or Navision.
- ✓ B2 English level
- ✓ Computer skills, including Microsoft Office.

DAS PHOTONICS offers a permanent position. Additionally, we are integrated in a highly technological environment where prestigious international projects are carried out and developed. Remuneration will be established according to experience.

If interested, please, send us both your CV and a motivation letter to rrhh@dasphotonics.com
